**Innovative Lighting Fixture on a Low-Voltage Energy Magnetic Track by B Light**

---

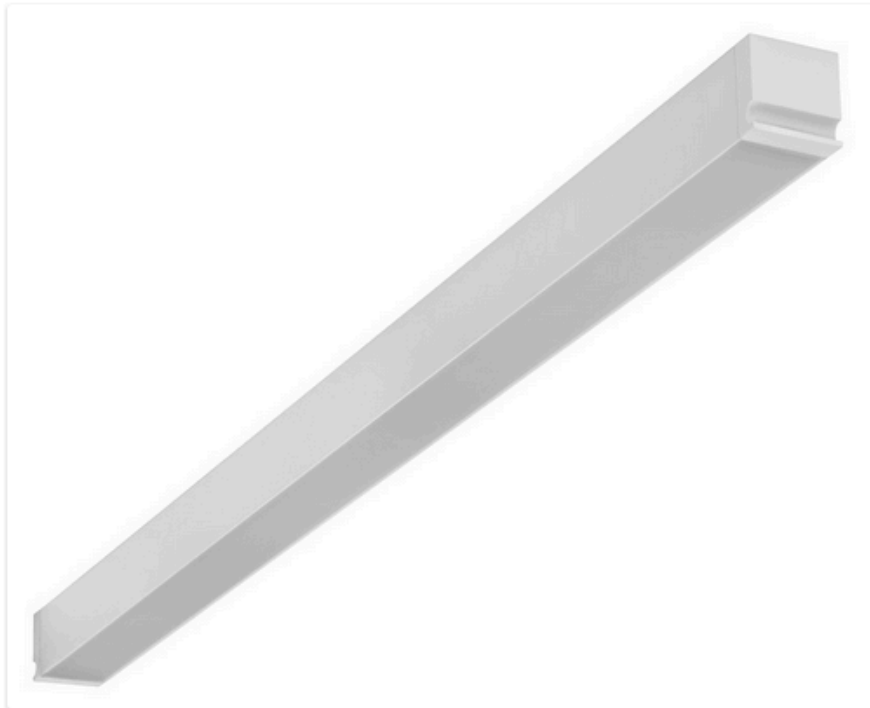

Italian company **B Light** presents an innovative lighting fixture: **Inserto Small Track**, an original unit on a low-voltage power magnetic track. Inserto Tiny Track combines practical options with creativity, and is the outcome of the analysis of its scope of application it develops thanks to the capacity and creativity of the designer, reproducing light in its numerous facets. This innovative luminaire is characterized by a minimalistic design, that enables it to perfectly adapt to any modern day environment.

Produced of extruded aluminum with PVC finish caps, this B Light luminaire has an even and completely uniform light distribution across its entire surface. It is obtainable with distinct colour temperatures: warm white 2700K and 3000K, and natural white 4100K it can final up to 30.000 hours at 70% of its luminous flux. Inserto Little Track can be installed by indicates of The Magnum Track, a magnet track that can be ceiling recessed, in-line or suspended, in order to highlight the essence of this lighting fixture.

With an extruded aluminum frame and milled aluminum finish caps, this track is offered in three diverse versions, depending on the various installation demands: The Magnet Track F is in-line recessed, and is fixed by means of clamps, The Magnet Track CL is ceiling-mounted or wall-mounted, whilst The Magnet Track SD is suspended. Every single version of The Magnum Track is available in two colours: white and anthracite. [Photos and info offered via e-mail by B Light]
