Inserto Small Track
by B Light

This new luminaire from B Light works on a low-voltage power magnetic track. Characterised by its minimalistic design, it aims to suit a modern environment as well as providing a uniform light distribution across its entire surface. Available with different colour temperatures – warm white in 2700K and 3000K and natural white in 4100K – it can last up to 30,000 hours at 70 per cent of its luminous flux.

Zigzag by Missoni
by Bolon

Unveiled at Mason & Objet in January, the latest collaboration of Swedish carpet manufacturer Bolon and Italian fashion design house Missoni launches next month. Establishing a partnership in 2012, the two companies' latest flooring collection, aimed at the commercial market, features an interpretation of Missoni's classic Zigzag pattern in bold colours, including 'cyan' (shown). *bolon.com*

3
KLIP
by Víctor Carrasco
for Viccarbe

Taking its inspiration from a paper clip the slit in the chair's back support works as a handle for easy moving as well as a hanger for bags or other items. Composed of formed oak veneer KLIP is available in polished, lacquered or upholstered versions. The base is made from calibrated steel, also available in colours of black, white or fluorescent orange. It is also available as a high stool. *viccarbe.com*

4
Work2
by KI Europe

New for 2015, KI's Work2 bench and workstations system features a cantilevered design to deliver unencumbered space above and below the work surface. The resulting uncluttered work area allows ease of movement, ideal for collaboration, hot desking and flexible working. With optional height adjustability, Work2 can be configured to suit various uses, from in executive suites to open-plan offices. *kieurope.com*

5
Prismatics
by Johnson Tiles

UK tile manufacturer Johnson Tiles has relaunched Prismatics, its longest-established tile range, and introduces hexagon shapes. Working with colour consultant Ptolemy Mann, the palette of 68 gloss and matt shades in five sizes will now include a selection of hexagon shapes in 13 colours. The range also includes 'new on-trend' tones to increase the number of neutral, dark and warmer shades. *johnson-tiles.com*
