

Revolutionary Lighting Fixture on a Lower-Voltage Electrical power Magnetic Track by B Light

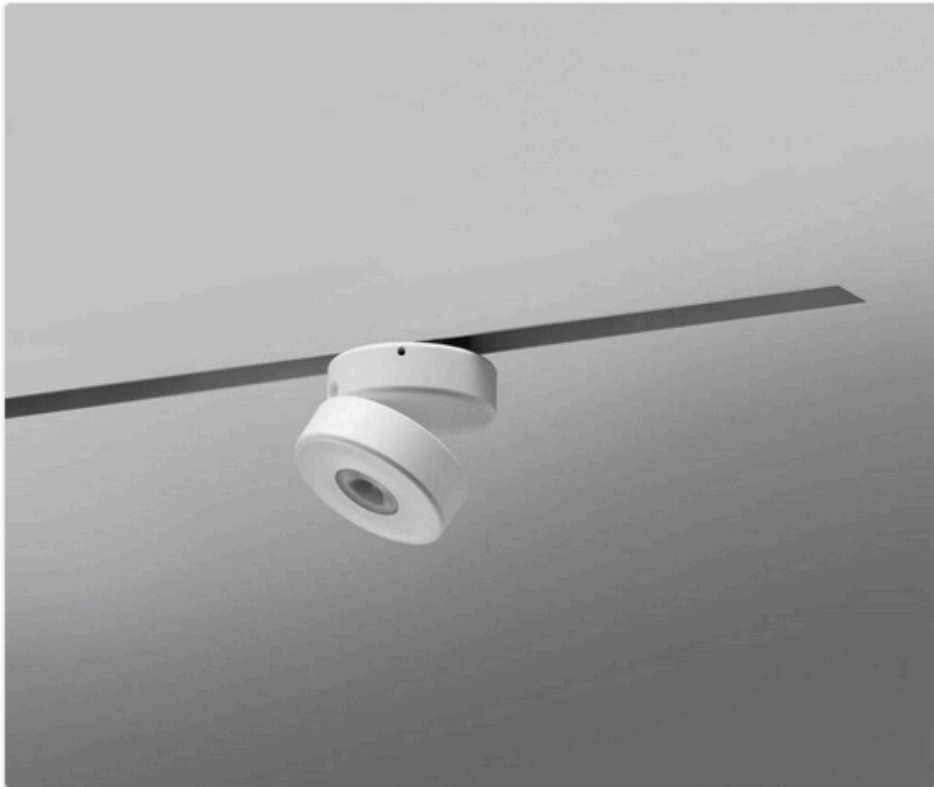

Italian company **B Light** presents an revolutionary lighting fixture: **Inserto Small Track**, an original unit on a lower-voltage energy magnetic track. Inserto Modest Track combines practical remedies with creativity, and is the consequence of the evaluation of its scope of application it develops thanks to the potential and creativity of the designer, reproducing light in its different facets. This progressive luminaire is characterized by a minimalistic layout, that allows it to properly adapt to any contemporary setting.

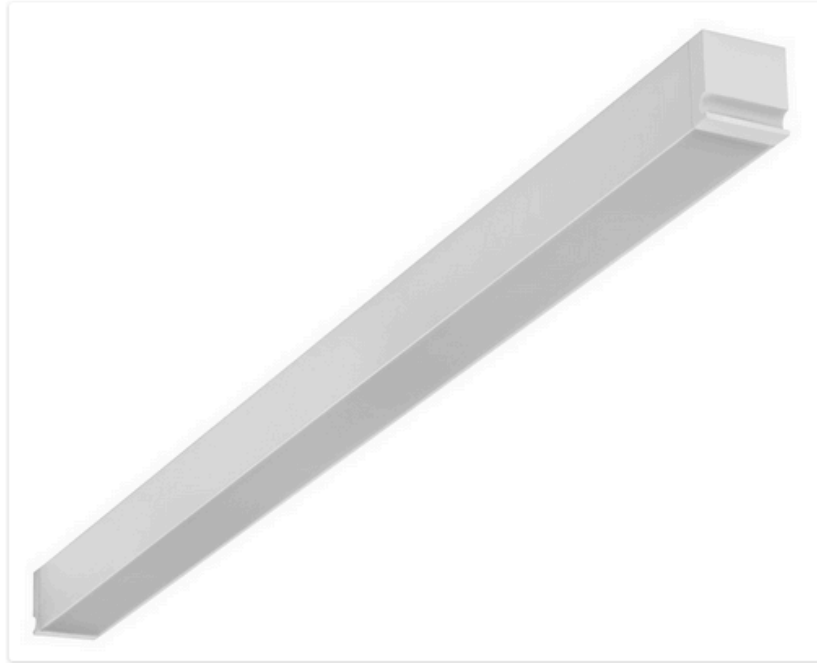

Produced of extruded aluminum with PVC end caps, this B Light luminaire has an even and perfectly uniform light distribution across its whole surface. It is accessible with different colour temperatures: warm white 2700K and 3000K, and all-natural white 4100K it can final up to 30.000 hrs at 70% of its luminous flux. Inserto Modest Track can be installed by signifies of The Magnum Track, a magnet track that can be ceiling recessed, in-line or suspended, in purchase to highlight the essence of this lighting fixture.

With an extruded aluminum frame and milled aluminum finish caps, this track is offered in three different versions, depending on the diverse set up demands: The Magnet Track F is in-line recessed, and is fixed via clamps, The Magnet Track CL is ceiling-mounted or wall-mounted, while The Magnet Track SD is suspended. Each and every version of The Magnum Track is accessible in two colors: white and anthracite. [Photographs and details supplied via e-mail by B Light]
