B-BUBBLE LED SUSPENSION LUMINAIRE FROM B-LIGHT

Posted on 03/18/2016

The minimal design of the B-Bubble pendant offers a flexible light source for residential and commercial spaces such as retail, bars or restaurants. There is a choice of two color temperatures, 2700K and 3000K with CRI93 and an electronic control of the operating temperature.

The aluminum shade is available in two textures (smooth and wavy), five different finishes and in two sizes - an 11-inch and 16-inch diameter.
