## KUBO 54 DOUBLE BY B LIGHT: THE LIGHTING DEVICE THAT OPENS EACH SPACE TO NEW DESIGN IDEAS

📁 illuminazione

B LIGHT, leading producer of LED technology luminaires, presents a new lighting solution: Kubo 54 Double, a dual emission wallwash luminaire. Kubo 54 Double is regular and essential, with geometrical lines inside a lighting device that perfectly integrates both indoor and outdoor spaces, improving their details.

Shaped as a parallelepiped, Kubo 54 Double is characterized by an extremely clean and minimalistic design, allowing an efficient integration inside any environment.

This innovative product is easy to install, thanks to its wall-mounted support; it is 62mm long, 54mm wide and 110mm high.

With a choice of dimming options, by means of control unit, Kubo 54 Double is available with a 2700K, 3000K and 4000K colour temperature, with CR193.

One of its features is the electronic control of operating temperature, that guarantees the luminaire to last in time with an ambient temperature up to + 60°C.

Kubo 54 Double creates a gazing lit effect able to interpret the surfaces it lights up, suggesting new and surprising applications.
